

# THOR FOR SALE!

## FORD AIRSTREAMER B190

### CONVERSION 4WD BOULDER

We are still on our trip through the Americas and we will sell our Expedition vehicle, probably in Chile (flexible) end JULY 2017.

The Van is ready to rock and perfectly equipped for a Family of 4 (like us with young kids) or for a couple.

It has a clean Vermont USA title at my name.

This is a beast, it can take you anywhere, you can always find the best spots to camp; on a hill, on the beach, and it is a ton of fun to drive!

**We are selling it for 36K USD.**

#### 1996: ORIGINAL VEHICLE

It is the Extended Body version (19 Feet) of the Ford E350 year 1996.

Ford 7.5l V8 super duty - strong and powerful.

Airstream conversion to motorhome, you can find documentation on the Web, it is high quality work!

## AIRSTREAM 19' MOTORHOME

## 2011: BOULDER CONVERSION 4WD

It is basically when the Van starts his second life, he had only 32K miles at this time and was left unused several years.

The Van has been completely renewed and converted to 4WD by Boulder Offroad in Colorado.

## 2016: PAN AMERICAN SET UP

This is when we bought the Van with only 42K miles. We cannot thank enough the previous owner that was a passionate and prepared his dream Expedition vehicle but couldn't find time to use it as he wanted.

We then prepared it for our expedition for our family (interior renewed, including floor, kitchen, fabrics...).

Full mechanics check up, change of all fluids January 2017. The mechanics told us it was in optimum condition. It will have about 65/68K miles when we will sell it at the end of our trip.
